## RESEARCH SHEET OVERVIEW

Since 1 January 2023 ACM-EU also tracks listed companies on the European share markets (Index: MSCI Europe and MSCI Europe Small Cap). A research sheet is made available to investors at the start of every month. It gives an overview of which companies we purchase ourselves (equal weighted).

## RESEARCH SHEET OBJECTIVE

The objective is to generate long-term capital growth, applying quantitative analysis with a strong systematic approach. We focus on a liquid universe comprising of both large and small cap equities representing the majority of the investable EU equities. Our security selection differentiates itself using a systematic approach through fundamental analysis with a number of proprietary parameters. We believe that utilising a margin of safety is key in providing superior risk adjusted returns for our investors.
